

# WOMEN'STEC

Enabling women into non-traditional employment

## Community Trainers Needed

Do you have a flair in one of the following areas...

- General DIY
- Furniture Making / Upcycling
- Plumbing
- Electrics
- Floor and Wall Tiling
- Painting and Decorating
- Gardening / Horticulture
- Digital Devices
- Computer Coding
- PC Maintenance
- Car Maintenance
- Joinery / Carpentry

Could you lead a workshop or a course in one of the above areas?

If so, we'd like to hear from you! We're looking to increase our bank of community-based trainers.

Our community trainers need knowledge and practical experience in their subject area, and will be able to deliver short courses e.g. half day taster session, or courses over 6 to 8 weeks.

We currently need trainers who can deliver courses in the North West and across the region. Previous training experience is desirable.

Applicants should have the personal characteristics to deliver to women who have been excluded from education, training and employment and have the ability to work within the mission, vision and values of **WOMEN'STEC**.

To find out more, please contact Patricia Fleming on tel: 02890 749 810 or email: [patricia.fleming@womenstec.org](mailto:patricia.fleming@womenstec.org)
